Montebello, CA – Great Minds in STEM is proud to announce our Luminary Honorees for 2019! Eighteen stellar role models have been selected from multiple industries and government agencies. This distinction honors their achievements leading, collaborating and initiating key programs and research in their respective fields. All Luminary Honorees have emerged from the Selection Committee peer-review process.

The Class of 2019 will be honored at the 31st Annual Great Minds in STEM Conference taking place September 25-28, 2019 at Disney's Coronado Springs Resort in Lake Buena Vista Florida. Congratulations to all of this year’s Luminaries!

Great Minds in STEM - Press Release - www.greatmindsinstem.org
About the Organization

Great Minds in STEM™ is a 501(c)3 a non-profit organization dedicated to keeping America technologically strong by promoting Science, Technology, Engineering and Math (STEM) careers, especially in underserved communities. Established in 1989 and based in the Los Angeles area, the organization's nation-wide programming focuses on STEM educational awareness from kindergarten through college, and on seeking-out and documenting the world-class contributions of Hispanic professionals in STEM to serve as role models for the next generation of American engineers and scientists.

Great Minds in STEM's annual Conference is the organization's flagship event where all elements of outreach and programming come together to celebrate excellence in STEM. The conference features executive forums, seminars, competitive programs, career opportunities and networking sessions and is attended by over 3,000 STEM students and professionals annually.

Great Minds in STEM is once again partnering with CAHSI (the Computing Alliance of Hispanic Serving Institutions), and will feature CHCI (the Congressional Hispanic Caucus Institute) in 2019. They’ve all chosen the Conference as the venue for annual meetings and events.
